Joe and Mike,

I agree with Joe. I've talked with Mary on the phone and provided some initial feedback. Attached are a few of my comments. Please let me know what you think.

Hi, Mike:

I appreciate Ann Green allowing us to review their fact sheet in the spirit of cooperation. The tone and posturing evident in the document, however, are not helpful. A fact sheet is intended to provide accurate information. Unfortunately, however, there are a lot of factual inaccuracies throughout the document. EPA cannot support the fact sheet in its current form. It will be the middle of next week before we can provide a thorough review and response to the document. We have lengthy redevelopment fact sheets for the Butte, Anaconda, and Milltown sites. We also have other cleanup and redevelopment at many other sites that are dismissed by the fact sheet. I'll follow up with you next week.

Have a great weekend!

Joe

Hi Joe,

Attached is a document Ann Green was going to send out to the Community Liaison Panel. They were looking for a quick turn around, but I was wondering if you or your staff may be able to add any positive light on some of the sites mentioned?

Thanks  
Mike
